

should be used when:

- a. the atmosphere contains no known hazard; and
- b. work functions preclude splashes, immersion, or the potential for unexpected inhalation of or contact with hazardous levels of any chemicals.

2. The following constitute Level D equipment (*italics indicate use is optional*):

- a. coveralls;
- b. *gloves*;
- c. boots/shoes, chemical-resistant steel toe and shank;
- d. *boots, outer, chemical-resistant (disposable)*;
- e. *safety glasses or chemical splash goggles*;
- f. *hard hat*;
- g. *escape mask*; and
- h. *face shield*.

Note: combinations of personal protective equipment other than those described for Levels A, B, C, and D protection may be more appropriate and may be used to provide the proper level of protection.

APPENDIX M

(Reserved for future use)
